Attend Our Grand FUR OPENING TO-DAY.

IN addition to our own excellent stock of fine furs and garments, we have to-day the entire representative line, from one of New York's leading Furriers.

This is an opportunity of the season—for you see all kinds of choice furs made up in all styles of garments.

Geo. E. Stifel & Co.

BRIEF MENTIONINGS.

Events in and About the City Given in a Nutshell.

Base ball this afternoon—Wheeling vs. Cincinnati.

The county commissioners' committee on poor house and farm met yesterday and transacted routine business.

The paternity charge against George Beecroft was dropped when he agreed to marry the complainant, Sarah Hell. He was released from custody.

Not the least attractive nook in the new McLure is the cigar stand, which is conducted by Messrs. John McLure and James Dyson, two young men who are well known and popular.

The Fenney insanity case did not come up before Squire Phillips yesterday, owing to Mr. Howard, one of the attorneys, being otherwise engaged, and it will be continued so soon as the attorneys agree on a date.

Swift & Company, of Chicago, will erect a two-story brick building at the corner of Sixteenth and Eoff streets, to be used as a meat storage house. The company is now located at the corner of Water and Twelfth streets, South Side. The new building will be a model in its line.

Last night, the general committee of the Wheeling K. of P. lodges in charge of arrangements for the coming grand lodge meeting, met and transacted considerable business. Everything appears to be in good shape for the coming fair, and it will be one of the largest functions in evidence here this year.

In the United States court yesterday, the case of Fred Neiminger vs. the Baltimore & Ohio Railroad Company occupied the entire day. The evidence is in, and arguments were on in the afternoon. At the conclusion of Judge Driggs' argument for the plaintiff, court was adjourned until this morning. The trial may be finished to-day.

At a meeting of the council committee on health last night, it was decided to give the Giffen Reduction Company additional time in which to complete its plant on the side of Wheeling hill that will be used for the disposal of the city garbage. Unexpected difficulties have been encountered that prevent the perfecting of the plant.

SOCIETY.

A very enjoyable occasion to the family relatives was the seventy-third birthday anniversary of Mrs. Louisa Seabright, celebrated at her home on Nineteenth street. It was attended by Mrs. Seabright's children and grandchildren, and other relatives, numbering about seventy-five in the party, and the venerable host was the recipient of many cordial congratulations on having attained so ripe an age coupled with wishes for continued years of happiness. Mrs. Seabright was presented with a large number of handsome presents.

This evening at the home of the bride's parents, in Clarington, occurs the wedding that unites Mr. George Wells, of this city, with Miss Jessie Sims, daughter of Captain and Mrs. W. S. Sims, of Clarington, in the bonds of matrimony. Only the immediate relatives and close friends will witness the ceremony. The newly married couple will leave to-night for a trip in the east, and will be at home at the Stamm apartment, October 15. The groom is the senior partner in the cigar firm of Wells & Campbell, and is one of Wheeling's brightest young business men. The bride, who is well known in Wheeling, is a charming girl. Quite romantic was the manner in which Mr. Wells and Miss Sims became acquainted. Several years ago a fishing club of which Mr. Wells was a member camped out on the West Virginia side of the river above Clarington, just opposite the Sims homestead. It was during the camping-out of the Wheeling boys that the young people became acquainted.

SPENCE THE MAN

Whom Mr. Gill Will Defeat for Congress in November.

STEBENVILLE CONVENTION

Yesterday Was a Tame Affair, and Even the Successful Candidate was Not Sufficiently Interested to Remain and Extend the Usual Thanks. It is Said John R. McLean Will "Pay the Freight."

The Democrats of the over-the-river district (the Sixteenth Ohio) met in convention yesterday at Steubenville and nominated Lavosier Spence, of Martin's Ferry, as their candidate for Congress.

The convention was held in Turner hall, and Belmont had as large a delegation as any on the ground. The feature of the day was the contest in Belmont, where two candidates were presented from Martin's Ferry. Carroll county was represented by one candidate, T. B. Newton. He put himself on every committee and boomed his county's candidate strong.

The temporary officers were: W. C. Bigger, of Cadiz, as chairman, and R. C. Meyer, of Bellaire, as secretary. Later the temporary organization was made permanent.

The following were made members of the congressional committee: Monroe, Thurman Spriggs; Belmont, R. C. Meyer; Carroll, J. W. Helfrich; Harrison, W. C. Bigger; Jefferson, Joseph Kithcart.

The Democratic state platform was adopted instead of resolutions.

A recess for dinner was had, and then nominations were called for. Carroll presented ex-Senator A. R. Haines; Jefferson, Hon. J. H. S. Trainer; Monroe, John W. Zessiger, all for complimentary votes. Harrison had no candidate. Belmont had two candidates, and McLean was said to be guaranteeing the expenses of a man who would make the race. W. T. Dixon presented W. L. Lupton; George Cooke presented L. Spence, and both made short, spread-eagle speeches.

The ballots resulted as follows: First—Spence, 45; Lupton, 20; Trainer, 42; Zessiger, 50; Haines, 28.

Second—Only slight differences.

Third—Spence 117 2-3; Lupton, 23 2-3; Zessiger, 4; Haines, 34 2-3.

D. Riggs introduced a resolution asking that the convention join the Republicans in regret for the death of Captain Danford, and express regard for his character as an honest man. Carried.

L. Spence was inquired for, and it was announced that he had returned home to attend to a pressing business engagement, so he did not appear to make the usual speech of acceptance.

The joint Twentieth-Twenty-second Democratic senatorial convention will be held in Steubenville October 3.

"PINK" HAWLEY

Is Scheduled to Pitch for the Cincinnati Reds in This Afternoon's Game. No Game Yesterday on Account of Cold Weather.

The exhibition game of base ball between the famous Cincinnati Reds and the Wheeling Inter-state team, scheduled for yesterday afternoon, was not played, on account of the cold weather. This afternoon, however, there will be a game, regardless of cold weather, but as the weather indications are for clear and mild weather the conditions are likely to be favorable.

"Pink" Hawley formerly of the Pittsburghs, is scheduled to pitch for the Reds this afternoon, and either Poole or Parvin will twirl for the Stogies. Either of the two ought to be able to make the game interesting to the "big leaguers."

The game will be called at 3:30 o'clock sharp.

TO REFILL
A BRAIN...

USE

GRAPE-NUTS

Brains Are Made and Repaired
by Food. USE GOOD FOOD.

A Natural Brain Builder.

In hot weather a meat breakfast is not always desirable; one looks rather to some more cooling food, such as fruits and cereals.

One of the great advantages of Grape-Nuts lies in the fact that it is ready cooked and can be served cold at once.

Treated with cream, it is as delicious as a confection, and at the same time furnishes the user with the needed food elements of the most perfect character and combined in a scientific manner.

One of the food particles in Grape-Nuts is true Natural Phosphate of Potash as furnished in certain parts of the field grains, and this is the element used by nature to change albumen into the soft gray substance with which the brain and nerve centres are filled and which must be replaced daily as it is used up by the activities of the body.

Steady users of Grape-Nuts are nervous, brainy and healthy people. Wise selection of food is a duty everyone owes self and those dependent upon us. The Postum Co. at Battle Creek make Grape-Nuts, and all first-class grocers sell.

THAT SCOTT INTERVIEW.

A Chance for the Register Liar to Earn Twenty-Five Dollars.

One night last week, before the McLure had opened, an Intelligencer reporter sought Senator Scott, who has apartments on the fifth floor. Securing an entrance after some difficulty, the scribe was piloted through dark halls and up many stairways, with Night Watchman Bowen and his lantern in attendance. The senator was seen, just before he retired, and the result was the news story appearing in the Intelligencer, telling of the effort to resurrect the old Hobbs glass house, on the South Side. The Register of the same morning also had a similar story.

The day following, remarkable to relate, the Register asserted that it had published the story exclusively, and that although the Intelligencer claimed to have had an interview with Mr. Scott, it had not. The Intelligencer promptly gave the lie to the Register man, and made the very pertinent inquiry whether the latter wasn't afflicted with paresis.

Again, yesterday morning, the Register denies that the Intelligencer interviewed Mr. Scott. A more striking example of cussedness would be difficult to produce. Here is a man who assumes to know what other people do better than they know it. What is the public to think of such pigheadedness in a journal that claims to be a correct purveyor of news?

Suffice to say, the Intelligencer reporter who interviewed Mr. Scott will present the Register man with \$25 in the coin of the realm if the latter will substantiate his wilful and premeditated lie—but he won't.

THE RAILROADS.

Some of the friends of J. B. Braden, superintendent of motive power of the Wheeling & Lake Erie, are telling of a compliment that was paid him a few days ago, says the Cleveland Leader. But recently the Wheeling decided that it would secure a number of new locomotives and placed an order for ten of the consolidation engines with the Pittsburgh Locomotive Works. It fell to the lot of Mr. Braden, as the head of the motive power department, to make the plans for these engines, which he did, and submitted them to the Pittsburgh works. It is said by his friends now that he has received from the Pittsburgh people a most flattering letter of commendation for his skill at preparing plans. It is even said that the letter was an assurance that the Pittsburgh Locomotive Works had been decided to make them the model after which engines of that type shall be built in that shop hereafter.

Good Enough to Take

The finest quality of loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor similar to that of maple syrup, making it very pleasant to take. As a medicine for the cure of coughs, colds, influenza, croup and whooping cough it is unequalled by any other. It always cures, and cures quickly. For sale by druggists.

Let Merit Win!

If you can get a better value in Top Coats for the same money we ask for ours, we don't expect you to buy ours.

But on the other hand, if we sell the best garment and give you a better variety to select from and save you money, then we feel that we are entitled to your patronage.

We know there are no coats made—not even to order—that receive the care and attention ours do. They are correct in style, perfect in fit, sound in quality and elegant in finish.

We guarantee both fit and worth. Our prices range from

\$8 to \$20,

With plenty of stopping places between.

OUR LEADER—

A tan colored all-wool covert cloth, coat lined throughout with guaranteed satin, at \$10
